

MEDIA & THEATER SYSTEMS

Whether you would like to upgrade your family room with surround sound and a plasma television or create your very own movie palace, BS, Inc. makes it possible. Our innovative home theater systems can adapt to any space, whether you are building a new home, remodeling a spare room, or completing an unfinished basement. Bolt Systems can custom design a home theater system to meet any budget.

From family room systems that disappear into your décor when not

in use to dedicated movie rooms, a home theater is one of the most enjoyable investments that you can make for you and your family. Whatever type of cinema experience you are looking for, BS, Inc. can create a professional home theater system custom-designed to meet your individual needs.

Impress your client at your next presentation. BS, Inc. can guide you to the best plasma, LCD, projector, screen, or audio solution that will help take your business to the next level.
